

Twin for Hope: FutureLearn Campus

Introduction to FutureLearn

[FutureLearn](#) is a global learning marketplace, offering courses from some of the world's best universities and education providers. Our partners include 26 of the top 30 UK universities and 21 of the 24 Russell Group.

Our mission is to transform access to education so that millions across the globe can develop the skills to achieve their personal and professional goals. FutureLearn enables learners to obtain credible and flexible learning experiences from short courses through to micro credentials and degrees.

To date, we have connected 18 million+ global learners to more than 1800 online courses, with an average review star rating of 4.7/5.

FutureLearn's Twin for Hope Proposal

Twin for Hope has discussed with FutureLearn the potential for Ukraine university students to access FutureLearn partner courses for free.

This would be enabled by FutureLearn's 'Campus' programme whereby existing FutureLearn university partners can opt-in to make their FutureLearn courses available to other FutureLearn university partners' staff and students. In essence, allowing universities to access each others' courses for free.

Currently, FutureLearn's 'Campus' programme has about 60 partners sharing 600+ short courses. Our proposal is for Ukraine universities to join this programme.

The free access for Ukraine university students would mean students can get all the benefits of paid subscriptions. Benefits include consuming course materials at a quicker pace if desired, access to tests, and a digital Certificate of Achievement upon completion. The certificate details learning outcomes, test scores, the educational institution and educators name(s).

Please note that the courses in the 'Campus' programme do not bear any academic credits from the educating institution, although Ukraine universities may wish to give their students credits for completing the courses.

The University of Dublin

Example short courses in the Campus Library:

- 171 **Healthcare & Medicine** courses such as [Improving Healthcare Through Clinical Research](#) from University of Leeds and the NIHR, and [Academic Writing for Healthcare Students in Higher Education](#) from Kingston University and St George's, University of London
- 108 **Business & Management** courses including CIPD's [People Management Skills](#), University of Leeds' [Starting a Business](#) series, and [Doing Business in Web3](#) from RMIT
- 37 **IT & Computer Science** courses such as the Open University's popular [Introduction to Cyber Security](#), and [A Beginner's Guide to Becoming a Blockchain Developer](#) from King's College London and Quant Network
- 41 **Language** courses such as [English as a Medium of Instruction for Academics](#) from University of Southampton, and [Basic English 1 & 2](#) from King's College London

How It Works

As a participating institution, you get a branded Campus sign-in page for use with your learners:

The screenshot shows the FutureLearn Campus sign-in page for the University of Bath. At the top, there is a navigation bar with the FutureLearn logo, 'Subjects' with a dropdown arrow, 'Courses' with a dropdown arrow, and 'FutureLearn for business'. A search bar on the right contains the text 'Search online courses' and a magnifying glass icon. Below the navigation is the University of Bath logo and the text 'Welcome to FutureLearn Campus'. A paragraph states: 'In collaboration with University of Bath, we're offering staff and students completely free access to a collection of short online courses.' A pink button labeled 'Start learning now' is positioned below the text. To the right of the text is a photograph of three people sitting on a sofa in a living room, looking at a laptop. Below this is a large purple section titled 'How does it work?'. This section contains three columns, each with an icon and a heading: 1. A laptop icon, heading 'Learn online with experts', and text: 'Educators from leading universities and cultural institutions will help you continue your learning through engaging courses packed with videos, articles, quizzes, and discussions.' 2. A globe icon, heading 'Pick your course', and text: 'You'll enjoy free online access to hundreds of courses with free upgrades until December 31, 2023.' 3. An hourglass icon, heading 'Stay social', and text: 'Join like-minded students from around the world and learn together as if you'd never left campus.' Below the purple section is a white section titled 'Confirm eligibility'. It contains the text: 'Verify your student or staff status and gain free access to FutureLearn Campus. Simply enter your University of Bath email address.' Below this is a text input field labeled 'University or college email address' and a pink button labeled 'Start learning now'.

Learners confirm their eligibility by signing in using their university email address. Once signed in, they can immediately browse the Campus Library and start learning on any of the included courses.

You will be able to monitor your learner's progress through FutureLearn's Learning Manager tool:
